

“HAWKESBURY” MULTI-FOLD DOOR SUITE

**COMMERCIAL OR RESIDENTIAL
WIDE OPENING CONFIGURATIONS
SECURITY FROM EXTERNAL ATTACK**

The Hawkesbury Multi-Fold Door Suite combines full sized commercial perimeter framing with specially designed commercial door stiles to achieve an attractive, functional alternative to traditional door units.

The Hawkesbury Multi-Fold Door Suite features a unique weather sealing arrangement to keep the elements on the outside. By simply reversing the perimeter framing extrusions, The Hawkesbury Multi-Fold Door Suite can be configured for either inward or outward stacking of door leaves.

The Hawkesbury Multi-Fold door suite utilises the exclusive range of ALSPEC E2 PLUS™ and E3™ hardware manufactured by Centor Architectural. These quality components extend the maximum door leaf mass to 80 kgs, whilst maintaining ease of installation and on site adjustment ensuring smooth, trouble free operation.

Designed to accommodate 40mm and 45mm door sections.

*The **ALSPEC** "HAWKESBURY" Multi-fold Door system has been tested in accordance with AS2047.*
