STANDARDS AUSTRALIA

Proudly Australian Made and Exported

Smooth Roller Gliding

Large 41mm diameter round-tyred rollers, combined with a strong metal adjustment bracket, ensure quiet operation and more roller adjustment than is ever likely to be needed. Open design and construction enables easy cleaning. (Inside of door shown above).

Perfectly Secure Panels

An anti-jump feature, which is incorporated in the head channel spacers, ensures the panels cannot jump the track and provides quiet rattle-free operation.

Modern Contoured Cushioning

Matching infill buffer with grip stile eliminates metal to metal contact and gives *Space:Maker* **SOFTLINE™** a smooth modern contour.

Panel Variety

Space:Maker **SOFTLINE™** is available in clear or tinted anti-shatter safety-backed mirror panels, plus a wide range of woodgrain or vinyl finishes. Plain panels for painting or wallpapering are an alternative for the do-it-yourself enthusiast.

Track

Space:Maker **SOFTLINE™** has a foot-friendly (unobtrusive, low-profile design), easy-to-clean track. Roller side-play is virtually eliminated, producing a smoother sliding operation.

Design Variety

Made to suit your individual requirements, *Space:Maker* **SOFTLINE™** wardrobes are suitable for either wall to wall or corner return installations. Made from high quality aluminium extrusions *Space:Maker* **SOFTLINE™** is designed to suit ceiling heights up to three metres (10'). The continuous finger grip on all door panels provides additional strength and ease of use.

Colour Range
